Member of a speaker's bureau:	n.a.
Financial interest in company (stock/shares):	n.a.
Scientific advisory board:	n.a.

EHA Lymphoma Group: goals

To establish a **network** of scientists/hematologists covering major areas of lymphoma research →

- clinical/translational research projects
- improve understanding of the biology and clinical course of lymphoma
- stimulate/facilitate collaboration between lymphoma groups
- (future) create a platform for innovative clinical trials across rare lymphoma subtypes

EHA Lymphoma Group: structure

- **Steering committee:** M. Federico, J. Radford, M. Dreyling, I. Aurer, MJ Kersten
- **Meetings:** at EHA; fall meetings Prague/Italy
- become a member? www.ehalyg.org or www.ehalymphomagroup.org

Current projects (a.o.):

- task force for improvement of clinical care/research of elderly/frail patients
- establish registries for rare types of lymphoma

Website: www.ehalyg.org

The screenshot shows the homepage of the EHA Lymphoma Group website. At the top, there is a browser window with the address bar showing "www.ehalyg.org". The main header features the EHA Lymphoma Group logo on the left and a search bar on the right. Below the logo is a navigation menu with links for Home, About us, Membership, Meetings, Projects, Publications, Downloads, Sponsors, Links, and Contact. A blue banner below the navigation menu reads "EHA Lymphoma Group".

EHA Lymphoma Group (EHA LyG)

The EHA Lymphoma Group is a Scientific Working Group under the umbrella of the European Hematology Association and was founded in 2013. The aims of the EHA LyG are to form a network of hematologists, pathologists, imaging specialists and researchers who are devoted to improving the diagnostics and treatment of patients with lymphoma, and to improve collaboration between the different (national) lymphoma groups.

Membership of the EHA LyG is possible at two levels: at the level of national lymphoma groups and at the level of individuals: for the latter option membership is open to any physician, nurse or scientist working in the field of lymphoma and/or interested in lymphoma research.
